

SEAT CUSHIONS

Ambella Home Collection offers seven diverse cushion types so you can create the perfect seat.

SPRING/ULTRADOWN CUSHION

This is Ambella Home Collection's **STANDARD CUSHION**. This cushion creates a plush, high crown seat with medium firm comfort and high resiliency. Coil springs wrapped in muslin are surrounded in a polyurethane foam envelope wrapped in a blend of 50% polyester fiber, 45% feathers and 5% down.

ULTRADOWN CUSHION

This cushion offers a luxuriously soft seat featuring high resiliency and shape retention. An Ultracel® foam core is wrapped with polyester fiber and then surrounded with a blend of 50% polyester fiber, 45% feathers and 5% down.

DOWN LUXURY CUSHION

Ambella Home Collection's most plush seat cushion. A mixture of 75% waterfowl feathers and 25% white duck down is wrapped in a channeled down proof ticking cover. This seat cushion will require maintenance, turning and plumping after each use.

SPRING FIBER CUSHION

Similar to Ambella's standard cushion, the Spring Fiber cushion creates a plump high crown seat with medium firm comfort and very high resiliency. Coil springs wrapped in muslin are surrounded in a polyurethane foam envelope wrapped with plush polyester fiber. This is the perfect cushion to use in bench seats. It will eliminate most if not all of the comfort wrinkles and puddling that may occur in a cushion with down fill.

TAILORED SUPPORT CUSHION

This hypoallergenic cushion creates a firm seat with a tailored, crisp appearance. An Ultracel® foam core is wrapped with plush polyester fiber.

CUSTOM VALUE CUSHION

This hypoallergenic cushion, **ONLY AVAILABLE ON THE CUSTOM VALUE COLLECTION** creates a soft, comfortable seat. An Ultracel® soft foam core is wrapped with plush polyester fiber.

BEYOND PLUSH CUSHION

An Ultracel® foam core is surrounded by a down proof casing, channeled and filled with a mixture of 50% polyester fiber, 45% waterfowl feathers, and 5% goose down. This cushion is for the customer that prefers the all down feel and look with less maintenance. A very soft foam core helps the cushion retain the shape, but a soft, unstructured appearance will remain. Fluffing will be required occasionally.

LENNOX CUSHION

ONLY AVAILABLE ON THE LENNOX SOFA, this cushion offers a down like softness. A thin, Ultracel® foam core is wrapped in 1 oz fiber and feathers and down. Four layers of down proof ticking surround the outside. This seat cushion will require maintenance, turning and plumping after each use.

BACK PILLOWS

Ambella Home Collection offers four different back pillow options to further customize your upholstery selections.

ULTRADOWN BACK

This is Ambella Home Collection's **STANDARD BACK PILLOW**. A blend of 5% down, 45% feathers and 50% polyester fiber creates this softly supportive back pillow. These backs are the perfect complement for Spring/UltraDown, UltraDown, and Beyond Plus seat cushions.

TAILORED SUPPORT BACK

This hypoallergenic back pillow is comprised of an Ultracel® foam core wrapped in thick, plush polyester fiber creates Ambella Home Collection's most supportive back pillow with a tailored look and good resiliency. This is the coordinating back pillow for the Tailored Support seat cushion.

DOWN LUXURY BACK

This luxuriously soft back pillow consists of a mixture of 75% waterfowl feathers and 25% white duck down encased in a channeled down proof ticking cover. This back pillow will require maintenance, turning and plumping after each use. This is the coordinating back pillow for the Down Luxury seat cushion.

CUSTOM VALUE BACK

Plush polyester fiber is encased in a channeled ticking cover to keep the back pillow fill in place. This is the coordinating back pillow for the Custom Value cushion. **ONLY AVAILABLE ON THE CUSTOM VALUE COLLECTION.**

LENNOX BACK

This extremely soft back pillow features a blend of feathers and blown fiber wrapped with microgel fiber and then four layers of down proof ticking. **ONLY AVAILABLE ON THE LENNOX SOFA.**
