SÉ LONDON BEETLEY CHAIR

“I love this bubbly chair and its use of curvature. The subtle tension between the shapes and the blue/blush color tones makes this chair an absolute favorite of mine. Every piece in this collection is its own art piece.”

CARACOLE MANHATTAN CHAIR

“I absolutely love the Manhattan armchair by Caracole. It has extremely handsome lines and can adapt to almost any setting, be it contemporary or classically traditional. It is stunning from all sides and has the perfect scale for bedroom, living room or den.”

HUNTINGTON HOUSE 7723-50 CHAIR

“This Huntington House armchair is a favorite because of its versatile yet unique silhouette, providing both form and function. The high, tight back and tight seat make the chair wonderfully comfortable and family friendly. The gorgeous silhouette will complement all aesthetics, adding that eclectic vibe to any space.”
