HOME ACCENTS TODAY®

Accentuate the Positive

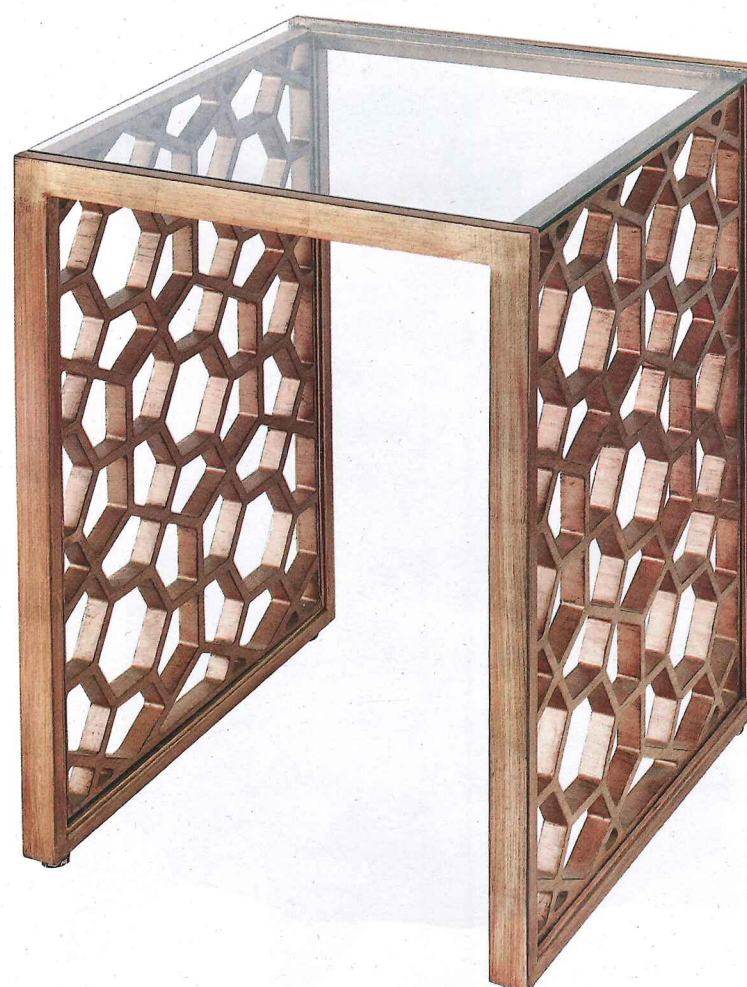

The distinctive, open framework of **Olliix's** accent table gives a nod to contemporary sculptural art.

Burnished, hand-hammered brass lends decadent texture to the Harrington Spot table from **Alden Parkes**, ending in a blackened mahogany plinth base.

Caracole's Good as Gold table crafts metal into a lyrically scalloped, columnar form and features a clever raised edge to keep drinks in place.

Alluring hexagonal forms come together to create a compelling geometric fretwork on **Stein World's** accent table.
