With a brass-plated metal ferrule
 and back support, the It's All Greek
 To Me chair is dressed in a soft,
 rose gold finish with a leather
 seat in a metallic champagne fizz
 pattern for a vibrant visual effect.

DESIGN IN A *new* *direction*

Using an eclectic mix of unique materials and glamorous finishes, **CARACOLE's** sophisticated designs combine the beauty of the silhouette with functional elements like hidden electronic charging stations, storage options and security features, creating furniture that is both beautiful and functional at home

A scallop-shaped columnar piece, the Good as Gold side table features a raised edge to keep drinks and other accouterments in place. The metal base is painted in polished Whisper of Gold.

The Best Case Scenario chest features three drawers that can accompany the bedroom, but can be displayed in a hallway or living room, making it a genuinely versatile piece. A classic French aesthetic includes a shapely front and curved legs with carved shell details. The inside drawers highlight a botanical print stenciled in metallic silver.

For heightened, luxurious comfort, the Dream On Bed is fully upholstered in cream velvet, with a tall headboard and lower footboard that showcases soft, double-stitched bolster-lufting. Accented with wooden feet painted in taupe under the headboard, the piece is a showstopper.
