QUADRUPLET CREATIONS

Check your bucket list with Caracole's fine-looking realisations for a cosy home.

TEXT CLARA LING IMAGES COURTESY OF CARACOLE

Moving into a new home this season for a brand new start? Finding the right furniture can be overwhelming. Look no further with high style furniture brand Caracole, which is proficient in turning your living and dining area beautifully into a new direction showcasing four captivating pieces.

DO A 360

Dazzled in charisma, this stunning 60-inch round table sets a gold standard dining area worthy of an academy award. The sculptural Oscaresque table is highly reflective – its stainless steel base finished in Gold Bullion is artistically twisted. The 360-degree top on the other hand, is clad in contemporary wood made from fumed Eucalyptus and finished in a dark and decadent French Roast. Much like an award-winning trophy, it will now never fail to add drama to your dining regime.

BRIDGE THE GAP

For a more classical look of natural grain of wood, this sofa draws your eye to the hand-carved fluting detail defining its wood frame. Gracefully, the faux ratchet arms spread outwards (so does the back), leaving an artistic gap while adding interest to its sleek silhouette. Four flared skinny legs carry the weight of the luxurious diamond-quilted and cotton satin fabric in pastel parchment. It couldn't be more elegant with its complementary details from the pillows arrayed in misty jade and silk paisley.

LIVE ENTERTAINMENT

A family room would not be complete without some sort of entertainment. Long and lean, this four-door credenza is the perfect perch for today's flat screen TV. Schemed in a rich, decadent French Roast at its base while a mahogany shelf floats above, the shelf is brilliantly finished in Gold Bullion brackets – elevating the live edge shelf besides adding a dose of glamour. Behind its centre doors reveal two drawers and an open area. Meanwhile, on either side of the doors lie adjustable shelves for efficient storage space.

EVERY PIECE REPRESENTS HIGH DESIGN AND
VALUE – CREATING THE MOST FASHION FORWARD
HOME FURNISHINGS AROUND THE WORLD.

THE BEE'S KNEES

One of Caracole's best-selling chair frames, this collection is now available in a casually glamorous sofa! Featuring its hand-carved lattice frame finished in a shimmery caramel leaf, the sofa is upholstered in a tone-on-tone textured honeycomb fabric. Not forgetting five decorative pillows that come together for a comfy touch and a relaxing feel. Buzzing to be the centre of attention, this sofa is at its best when seated in the living room. ♦
