The Flamingo pendant light fitting provides users with versatility that can easily be modified to provide different sculptural forms and lighting effects

VIBIA

With its mission of providing lighting solutions with products that inspire the creative abilities of design professionals, Barcelona-based lighting manufacturer Vibia's new offering is the Flamingo. "The challenge was to project light onto the shade rather than surrounding the light source. The result is an ethereal effect where the lamp and its lighting appear deconstructed," explains designer Antoni Arola. By separating the light source from the diffuser's independent conical rings supported by fine metal wires, the Flamingo is able to provide ambient, indirect light for living spaces, or more focused task light for dining areas and other surfaces. For more information, check out <www.vibia.com>.

DEXTERTON

With the increasing interest of many in home design, furniture shops are expanding left and right. Dexterton opened its third Caracole store in Greenbelt 5 mall in Makati City. Style leader Caracole has a broad global retail presence and is exclusively distributed by Dexterton. It is a high-style furniture brand, filled with personality, and offered at an exceptional value. Each piece is a breath of fresh air crafted with sophistication, creativity, and expression that will take your home in a beautiful new direction. From classic to modern. Dexterton is a one-stop style shop for your home needs.

Enjoy skillfully crafted furniture pieces suited to your design aesthetic

Happy Stuff

These are the things I'm loving this month!

Written by HAZEL SANTOS

THE OLD WOOD PH

"This local business was referred to me by a friend of mine, who spoke highly of the furniture pieces The Old Wood made for her family. Ferdi got interested in woodwork using reclaimed wood after watching some online videos, and decided to make an industrial coffee table for his wife Liz. What turned out to be a thoughtful gift turned into a business for the couple, who studied the ins and outs of furniture making and design on their own. They now employ their own craftsmen to make custom pieces in their workshop, upcycling old wood into cherished heirlooms."

Contact (0915) 6630476 for inquiries or check out @theoldwoodph on Instagram and Facebook to see more of their creations.

From top: Dulce side table (P9000), Geronimo side table (P8000), and Almeda chest (P10,000)

Letter board (P950/set)

HOME EDITED

"I like working with my hands, which means I've tried everything from knitting to calligraphy. While looking for wax seals online, I came across the Home Edited website, and I saw this cute letter board that satisfies both my need to tinker around with things and my love for the written word. It comes with 290 pieces of letters, numbers, and punctuation marks, so you can hang your favorite quote, thought, or even reminders somewhere you'll see every day."

Check out <home-edited.com> and @home_edited on Instagram.

LUCENDI

Station shelf lamp (P5500), from Lucendi

"I read a lot before going to bed, and I've woken up more than once with either my phone or a book on my face. I found this smart lamp that doubles as a little shelf during a trip to the home depot. It's the perfect size for storing your stuff before you drift off to sleep. The sleek design is a definite plus!"

Available at Lucendi, MC Home Depot BGC

Individual flower pots (P494.10-P663.30 each), and **Above and right:** 5-layer wall mounted planter box (P2699.10)

ARCADIA

"I live in a condo, and limited space prevents me from filling my place with plants, which I love. I was recently invited to an event and these stylish planters were what caught my eye. Arcadia offers them in a variety of shapes, colors, and textures. These will look great indoors or in my tiny balcony. No more unwieldy terracotta pots for me!"

Arcadia is exclusively distributed by Greenergy Ventures. Visit <www.GreenergyVentures.com> or contact (0915) 5622691 to order.

DEXTERTON

"I like furniture pieces with personality and this chair from Dexterton fits the bill. Its classic lines are given a more modern touch with white upholstery, and the subtle tufting on top of the backrest adds just the right amount of chic. The color combination with gold is timeless, and it's perfect for mixing and matching with my other chairs."

The Dexterton BGC showroom is located at Lot 2 Block 32, 38th St., BGC, Taguig City.

What Goes Around chair (price upon request), from Dexterton
