# DESIGN DIRECTION

## CUFFED IN CHARACTER

Enrobed in creamy microherringbone-patterned upholstery and wrapped in a multifaceted web of gold-toned metal, this sophisticated club chair can make an unexpected addition to a demure seating arrangement. \$3,399 ([horchow.com](http://horchow.com))

## CROWN JEWEL

Like a gem-encrusted necklace illuminated by candlelight, this artwork's gold veins are soft and mysterious in low light. Created by Dallas-based artist and interior designer Kelly O'Neal, "Bloquer III" is a hand-embellished giclee print measuring 60"H by 40"W and encased in a slim gold-colored metal frame. \$645 ([copenhagenliving.com](http://copenhagenliving.com))

## BOVINE BLING

A warm, neutral cowhide can subtly enrich interiors, but with the addition of hand-applied flecks of gold foil, the 5'W by 7'L Tanami hair-on-hide rug is a fashion-forward take on a Southwestern icon. \$900 ([zgallerie.com](http://zgallerie.com))
