OCTOBER 2016

FOREVER FURNITURE

Investing in quality furnishings that you can use for years to come will pay off in the long run. SLHL asked local interior designers to share their favorite investment pieces.

BY MELISSA MAUZY

“In my opinion, lighting can make or break a room. My latest obsession is the ‘Super Bubbles’ chandelier by Charles Paris. It has a modernistic vibe that adds a whimsical touch to any room.”

Joni Spear, Joni Spear Interior Design.

Photography by Alise O'Brien.

“When it comes to investment pieces, I encourage my clients to invest in art. Whether it is the inspiration or the finishing touch, art is an important element in any room. Art is personal as it either generates a feeling or is filled with anecdotes as to how it was obtained. It becomes a true and unique reflection of the owner.”

Lauren Sweet-Schuler, Castle Design.

“I love this entertainment console not only for the functional part, but also for the mix of materials. The darker wood blends well with other pieces in my home. The iron legs and detail on the doors works well with light fixtures, and the reflective quality adds elegance. This piece will function well in a dining space, bedroom as well as a media cabinet. Overall, I will be able to move it in various locations to change the look.”

Ellen Kurtz, Ellen Kurtz Interiors.
