Long gone are the dark finishes and palm tree carvings of yesterday! Today's beachside retreat is much more modern with natural elements such as bleached coconut, stone and palm tree husks, an elegant combination that bridges the senses between indoors and outdoors. That is why we couldn't be happier to have guest speaker,

Don Dilauro from Palecek, a company known for using innovative and natural materials. Also speaking are talented Interior designers, Kelly Kilgo and Robin Azevedo who will unearth creative design tips incorporating color, texture and more. This seminar is a must for anyone wanting a modern beach house lifestyle!
