

# COLOR PSYCHOLOGY

Saturday, October 19, 2019

2:00pm - 3:30pm

Robb & Stucky Coral Gables Showroom

*4711 Le Jeune Rd., Coral Gables FL 33146*

Join us for a stimulating seminar on Color Psychology. There is a reason why people prefer certain colors over others. This preference says volumes about our personalities because each color has an association with a reaction our brain has when we internalize it. Color Psychology is a well-known, yet less explored branch of study on how our brain perceives what it visualizes. Designers Maria Elena Holguin and Ana Cayeiro will assist James Brice of Benjamin Moore to show you how to use color in your space to achieve the feeling and action you desire. Light refreshments will be served.

**RSVP today!**

Call (786) 804-4282 or visit [robbstucky.com/seminars](http://robbstucky.com/seminars)

*Please RSVP by Thursday, October 17, 2019*
